LONG TERM CARE PROGRAMS

FAMILY CARE

Family care is a public program that offers individuals a wide variety of long-term care services, making it possible for seniors and adults with physical and developmental disabilities to live at home and stay independent as long as possible.

Family Care members receive support from a care management team made up of a care manager and nurse. They perform a comprehensive assessment of your needs, abilities, preferences and values to develop a personalized plan to meet your outcomes and goals.

Members continue to choose their own physicians while Family Care provides the added long-term care support you need. Your team may make suggestions and assist

in coordination, but you and your doctor will continue to be responsible for managing your health and medical care decisions.

LONG TERM CARE PROGRAMS CAN HELP IF YOU:

- Have a long term care need expected to last more than 90 days; and
- Are at least 18 with a physical or developmental disability; or
- Are at least 65 years of age; and
- Meet functional eligibility criteria; and
- Are Medicaid eligible (ADRC can assist with application process)

IRIS (INCLUDE, RESPECT, I SELF-DIRECT)

IRIS allows for self directed services and puts the individual in charge of his/her own long-term care. An individual creates a plan outlining long-term care supports and services with an assigned monthly budget. Individuals are able to hire their own service workers directly or may utilize an agency or community provider. Individuals enrolled in IRIS work with an IRIS

Consultant and the IRIS Financial Service Agency which pays for the services participants have authorized.

Persons enrolled in IRIS manage goods and services to meet their long-term care needs and use IRIS-funded, waiver eligible supports and services to remain in the community and avoid institutional care. IRIS program participants are supported in self-direction by IRIS Consultants and Fiscal Employer Agents.

MEDICARE PART D

Medicare has expanded its coverage to include prescription drugs as of January 1, 2006. Any person who receives benefits through Medicare (Part A and/or B) is eligible for the Medicare Part D drug benefit. However, Medicare Part D is a voluntary program and if you want the benefit you will need to enroll in a Medicare Part D plan. Please be aware that if you do not enroll in Medicare Part D or have other “creditable coverage” you will be subjecting yourself to a premium penalty if you decide to enroll at a later time. Unlike traditional Medicare coverage, private insurance companies whose plans have been approved by the

federal government offer drug coverage through Medicare Part D. The private insurance company will administer the drug coverage not the federal government. A Benefit Specialist can meet with you to discuss your prescription drug coverage needs and help you enroll in a Medicare Part D plan - if you choose to enroll.

MEDICARE SAVINGS PROGRAMS - EXTRA HELP

Medicare Savings Programs can help Medicare recipients with limited income and assets pay for their Medicare Part B premium. Some Medicare recipients may also qualify for Prescription Extra Help to pay for the costs of the monthly premiums, annual deductibles, and prescription co-payments that are related to a Medicare Part D prescription drug plan. Many people qualify for these potentially big savings and don't even know it, so it is worth asking the question.

To find out if you qualify for Prescription Extra Help for the Medicare Savings Programs, contact the ADRC and ask about these low income Medicare programs. We can assist with a financial assessment to see if you qualify and help with the application if you meet the guidelines.

HEALTHCARE AND ADVANCE PLANNING

Healthcare and advance planning allows you to make choices regarding your medical care and/or finances in the event that you become incapacitated. This is your opportunity to express your wishes rather than potentially having a court appoint a guardian to do this for you. Advance Planning may be made by any competent individual 18 years and older.

The Wisconsin Department of Health Services (DHS) has healthcare and advance planning forms available online. These forms are designed to be completed without the assistance of an attorney. Given your particular circumstances or concerns, however, you

may want to seek legal advice from an attorney. The forms available online are:

- Declaration to Physicians (Wisconsin Living Will)
- Power of Attorney for Health Care
- Power of Attorney for Finance and Property

If printing these forms from the Internet, please assure that you print and complete all pages of the forms you are using. To be valid, the forms must be complete and signed. The Declaration to Physicians (Living Will) and the Power of Attorney for Health Care have accompanying letters that are not part of the legal forms but contain information that should be read prior to completing the forms.

The forms contain standardized wording specified in the Wisconsin Statutes. If these forms are filled out and signed correctly, the completed forms are presumed to be valid in the State of Wisconsin. Do not change the preprinted wording of the forms unless instructions for the forms indicate you may do so. Changing the forms, contrary to their instructions may invalidate the completed forms. If the forms are not sufficient for your needs, consult an attorney.

COPIES OF THE FORMS MAY BE OBTAINED BY:

- 1 These forms, or variations of these forms, may also be available from your attorney, physician or hospital
- 2 Pick-up forms at the Aging & Disability Resource Center
- 3 Printing forms from the internet-www.dhs.wisconsin.gov/search/advanced-directives

SUPPORTED DECISION-MAKING

Supported Decision-Making (SDM) is a recognized alternative to guardianship through which people with disabilities use friends, family members, and professionals to help them understand the situations and choices they face, so they may make their own decisions. Simply, it's the way most of us make decision; by asking trusted friends and allies to help explain things we don't understand.

SDM can help people understand information, issues and choices, weigh all their options, ensure that their personal preferences are considered and help them communicate those preferences and choices to the right people. It is a less restrictive alternative to full guardianship of the person.

For more information, see www.wi-bpdd.org/SupportedDecision-Making
